Forwarded by *DBR*

The following information has been received by the local Japanese Consular Police from the Metropolitan Police regarding a Chinese student named Yang Ch'uan:-

Yang Ch'uan was born in Singapore in 1917. In 1931, he was sent to his native place at Yang Tsung-sia (楊東縣), Kwantung Province, where he received his preliminary education. In 1932, he came to Shanghai and entered the Higher Middle School Department of the Great China University. Upon graduation from this institution in 1932, he entered the Political Economy Department of the Shi Chi University, where he left in April, 1933 owing to his suffering from pleurisy. He, then, returned to his native place in Kwantung Province where he remained until July, 1932 when he proceeded to Singapore to live with his father, Yang Dah Van (楊大藩), a rubber merchant. In February, 1933 he again returned to his home in Kwantung Province. On October 3, 1934 he arrived in Kobe and immediately proceeded to Tokyo where he entered the Toei (東亜) Higher Preparatory School for Chinese students. He is at present confined to his bed suffering from pleurisy. Nothing of an incriminatory nature was found in his property. However, as he lives with Yuan Pai Poo (袁益波), a suspected Chinese Communist, at No. 6 Fumizono Cho, Nakano Ku, Tokyo, his movements will be carefully watched.
